

We understand that Michael Tai of the University of Saskatchewan was recently in Taiwan and there may have been some discussions about the academic side of the seminar.

There seems to be sufficient progress that it would be desirable to get together early in the New Year to make sure that developments are proceeding satisfactorily and that we are providing all the necessary support from our end. Please let me know what would be a convenient time for you.

As you know, we were pleased to work with local artist, Kuo Wen-hsiung, to put together the calendar of paintings depicting Dr. Mackay's work on Taiwan. We look forward working with you to build on these old friendships and to cooperate in strengthening the ties that Reverent MacKay initiated between the people of Canada and Taiwan. My best wishes to you for a Happy and prosperous New Year.

Yours sincerely,

Craig Wilson
Deputy Director (General
