I'm only happy that it is being used for good things. That said, I'm not sure that we are ready for too many insights into your world.

Web technology..... ! Thanks for the clip, Mark. It gives us an insight on your world.

Patrick

Subject: ROM Mackay Exhibition clip

Here is a website with video from TVBS television news, of Lee Yuan-Tse, Chairman of Taiwan's Academy of Sciences, touring the ROM Mackay exhibition at the Shun Ye Aboriginal Museum. Lee, Taiwan's only Nobel prize winner, is one of Taiwan's most respected public figures (he turned down an offer of the Premiership in the current government to stay in academe). Lee comments that we all have much to learn from the story of Mackay's efforts to improve the welfare of the Taiwanese people.
